

INTERCOM NCS-STAFF CONSOLE (CUI-04)

CUI-04 is a desk unit with integral operating elements. It can make Direct Audio Call to each Patient Consoles (BCP-18). It can also initiate 12 emergency codes using a combination of dedicated buttons through connection to hospital Emergency /Group Summon System.

Patients can also initiate a 2-way Audio call to CUI-04 through their Service Console (BCP-18) It has 5 indicator lamps/ Sound Alarms to notify the Nurse Call Type with a Queue management system to prioritize (Critical the highest – Emergency/Service the medium and Normal the lowest Priority) and display them in priority order on a 128 x 64 LCD display.

The history of calls and the unfinished calls can also be monitored in priority order through dedicated buttons.

Critical Calls through Critical Patient's handset/Pear Push Switch can also be set using a dedicated button on CUI-04.

Technical Specifications:

Weight	827 g
Dimensions	W : 280 mm H: 48mm D: 160mm
Raw Material	PolycarbonateABS
Power Supply	12 VDC
Color	White
Port1	DB15 Connector to Terminal Box (DB)
Port2	Rj45 to Hospital Emergency/Group Summon System
Speaker	8 Ohms , 0.5 Watt
Operating Temperature	-10°C ~ +50°C
Operating Humidity	30% ~ 80% RH
Mounting	Desk /Surface
