## INTERCOM NCS- CORRIDOR STATUS LIGHT (ODL-19)

ODL-19 is a wedge-shape Corridor light noticeable from 5 angles which is installed above the patients' room door in the corridor.

It has 2 different LED Light colors that will illuminate showing the following states:

Green Color (Steady): Normal Nurse Call status

Red Color (Blinking): Emergency/Critical Nurse Call Status

The light is OFF when no Nurse Call has been activated.
